

# CORPORATE DESCRIPTION

2018 October

# UAB IG

---

*"Our project is the students' opportunity"*

UAB IG Institution is a replica of a conventional nonprofit investment fund. Its main objective is to bring all its participants closer to the financial markets through training meetings focusing on U.S and EMEA stock markets.

UAB IG has followed an exponential evolution in both results and affiliation of its members since its foundation in 2013 by two BA students from the same University. Winners of the LBCU Spain throughout 2016, gave a distinctive quality to the management team and symbolize the existing synergies among all the partners. This January three undergraduate students joined in Peetrade's Global University Investment Challenge and tied with the University of Hong Kong for the third place.

Nowadays the UAB IG Alumni consists of forty-six members, the morning group is about thirty members and five members represent the executive board. The diversity of partner profiles allows us to obtain greater profitability in terms of human capital and expand financial culture on a large scale.

For the realization of UAB IG we count on the support of the Deganat of the Faculty of Economics and Business and other institutions from our University. We have been registered as an association of the UAB on the Director of Col·lectius.

Each season UAB IG is updated both in structure and functioning as well as in staff with the intention of reaching proposed challenges and improving each edition. We provide participants all available resources so that the project continues to maintain its high rate of growth to the long term. We welcome any potential participant and, in no case, demand minimum training on the financial markets. Interest and motivation are our ideology.

**Paula Rodó Vila**

CEO of UAB Investment Group

## OUR MEMBERS SAY

*The UAB Investment Group gave me knowledge and another point of view of the financial world. In my opinion, it is a good way of learning about topics that university does not cover and, at the same time, meeting people with the same interest. Moreover, here you can have the opportunity of learning how to apply to companies and other extra useful information for the future. On account of this, it is a good and enjoyable experience.*

Laura Blanco

*When I started I thought that the stock market would be super easy and I would become The Wolf of Wall Street, but in UAB IG I understood that the real life is more difficult but more challenging. I've learnt a lot, I'm not rich but now I know how to prioritize depending on the risk that I want to take.*

Arnau Navarro, Co-founder Grou App

*The first year in UAB IG was a very positive experience, we performed fundamental analysis and also technical quite well, with an united work team. I highlight above all the positive feedback between the members which have made possible to advance in learning aspects. The outlook for this coming year is keep learning like analyst from my other teammates and perform an equilibrated stock portfolio in order to obtain positive returns.*

Sergio Medrano

*I joined UAB IG in the same period of its creation because I've always been interested in financial world and I missed the practical part in my grade. After one year in the Club I'm very glad the experience, I've learned through practical methods, in an entertaining way and diversifying and minimizing risk. I think that's wonderful the idea of creating this kind of club that gives the opportunity to everyone interested in this world to learn more through practice.*

Jaume Porgimón

## *Structure 2018-2019*

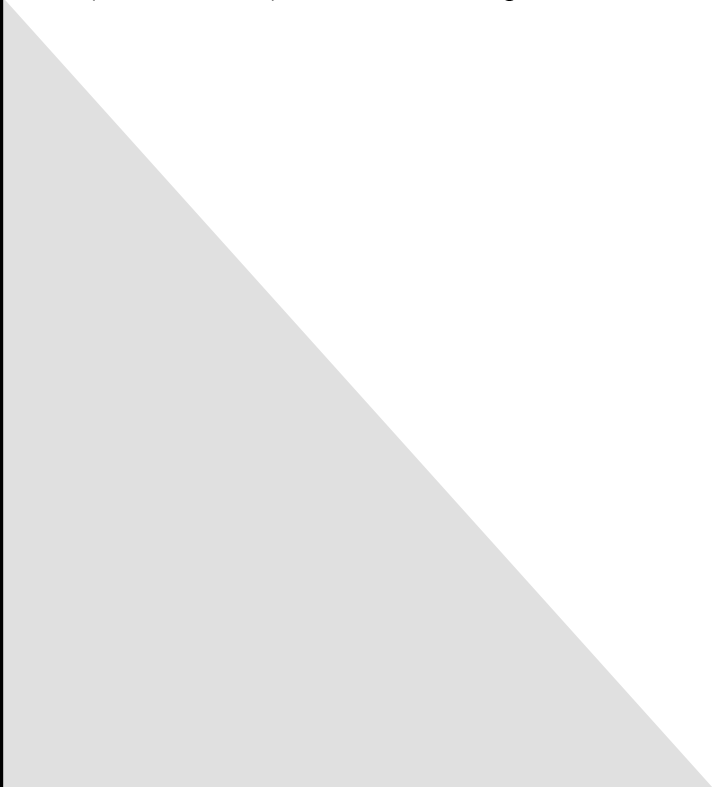

In aim to share financial knowledge throughout time and individuals, UAB IG is planning various meetings once they are announced via social networks and physical posters along the Faculty of Economics and Enterprise (Bellaterra Campus) in UAB.

The periodicity of reunions will relay on the number of assistants and the widespread interest over the topic selected to debate about. Likewise, the location of the meetings is going to be announced too beside the topic and the date on the poster.

Some third parties has been interested in coming to one of our meetings to present their business strategy and what financial product/services they offer. It will be communicated by the date.

UAB IG offers the possibility to enroll qualified teams to a global university investment challenge with profesional guidance of the members who participated this year. The first UAB IG meeting will talk about how the contest is structured and the investment platform working.

It is not necessary to be part of UAB IG to attend at some meeting, we encourage every person (student or not) who wants to acquire more knowledge about financial markets.
